Wolvesbane	1	3 pts	Personal	Chameleon	This spell is a lesser version of invisibility, since it leaves a shaky outline of the castor. It will not mask smell or sound. However, infra-vision will be blocked. If someone is actively searching for the castor and the castor is not moving, there is only a 35% -3%/level of detection. If the castor moves this chance is doubled. This spell will also give a +3 to armor class with a +1 every 2 levels.
Wolvesbane	1	1 pt/3 hp	Touch	Heal I	Heal I is the beginning of the most sought after forms of magic, healing. Everybody needs healing but this spell may be used to inflict damage as well. If this spell is reversed it does 3 hit points of damage for every spirit point spent. This spell, however, will not mend bones properly or remove arrows. Thusly, it still takes the skills of bone setting and surgery to use this spell for anything but the most basic of injuries. For example, if the bone is broken at a 90 degree angle, you must set it before healing it or it will mend improperly. The reverse heal causes the flesh to rot.
Wolvesbane	1	2 pts	Personal	Tongues	Tongues allows the castor to communicate with other races and intelligent humanoids. This spell magically alters the castor's speech to that of the target, doing the same for the target to the castor. This spell will last for one conversation.

Description

Eric has study the mysteries of human anatomy and life. His research is his life but when the Gestapo came for him he was initially not interested. They explained how vulnerable his family is and he was convinced to work for them. He is an unwilling participant at best. He has worked in a laboratory on projects similar to the super soldier formula but mostly dealing with a similar project to alter humans so they can resist battlefield gas warfare. His family is currently in Vienna under guard but he always thinks of his wife, Gretchen and his boys Tomas and Jahn.
